How do I attach the VQG label to my Service quilt?

Thank you for working on a Valley Quilters Guild SERVICE quilt!

Every quilt we distribute to those in need has our Valley Quilters Guild name on it in the form of a label sewn to the back of the quilt.

If you take a moment to carefully sew on the label, it is a great help to the Service Committee team as we prepare each quilt to go out for distribution.

Here are important things to know:

- **Labels are to be sewn down on all four sides, in the lower right corner, as you face the back side of the quilt, as close to the binding as reasonably possible.**
- Labels may be sewn by hand or by machine - just make sure they are secure.
- The current labels are woven fabric; please fold under and press the ends of the label for a neat, finished look before stitching.
- Please use bobbin thread that blends into the front of the quilt, so as not to draw attention to the label stitching.
- Labels are available from the Service Committee at any time. Please feel free to ask for some so you have them on hand.

The Service team processes a lot of quilts. For efficiency, we fold each quilt in a very specific way, so both the design and the labels can seen quickly and easily, allowing us to more easily track and distribute quilts. Having the label and washing instructions in a consistent place on each quilt allows us to streamline our work.

This small step on your part saves the Service Team a lot of time! It means we do not have to pull a sewing machine out from storage, set it up, search for matching threads, press the label before sewing and so on.

Thank you!
